

TOWN OF  
WINDSOR

# WINDSOR RIVER ROAD/WINDSOR ROAD INTERSECTION UTILITY AND ROUNDABOUT IMPROVEMENTS PROJECT

September 2019

## PROJECT NEED + PURPOSE

- Provide access to Town Center, local schools, commercial retail centers and future SMART transit station
- Improve traffic conditions
- Improve safety
- Improve sidewalks, bicycle lanes, access to facilities, and possibly passenger drop-off
- Meet safety objectives outlined by CPUC prior to future passenger rail service to Windsor

## EXISTING CONDITIONS

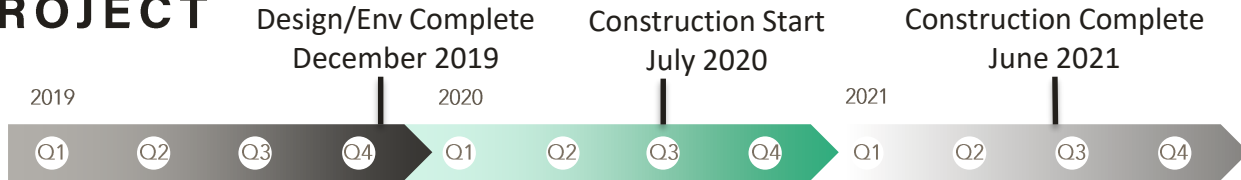

- Crosswalks located inside railroad warning devices
- Pedestrians congregating on or near the tracks
- Protected-Permissive lefts NB/SB
- Vehicle queues from intersection to the next intersection south
- Aging underground infrastructure nearing service life

# ESTIMATED TIMELINES

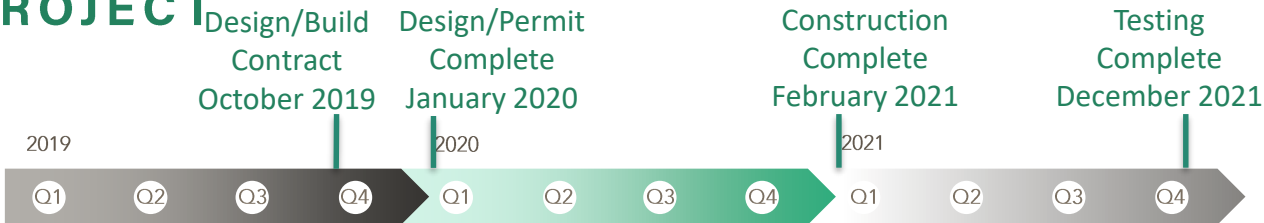

## PHASE 1 - TOWN OF WINDSOR UTILITY PROJECT

## PHASE 2 - TOWN OF WINDSOR ROUNDABOUT PROJECT

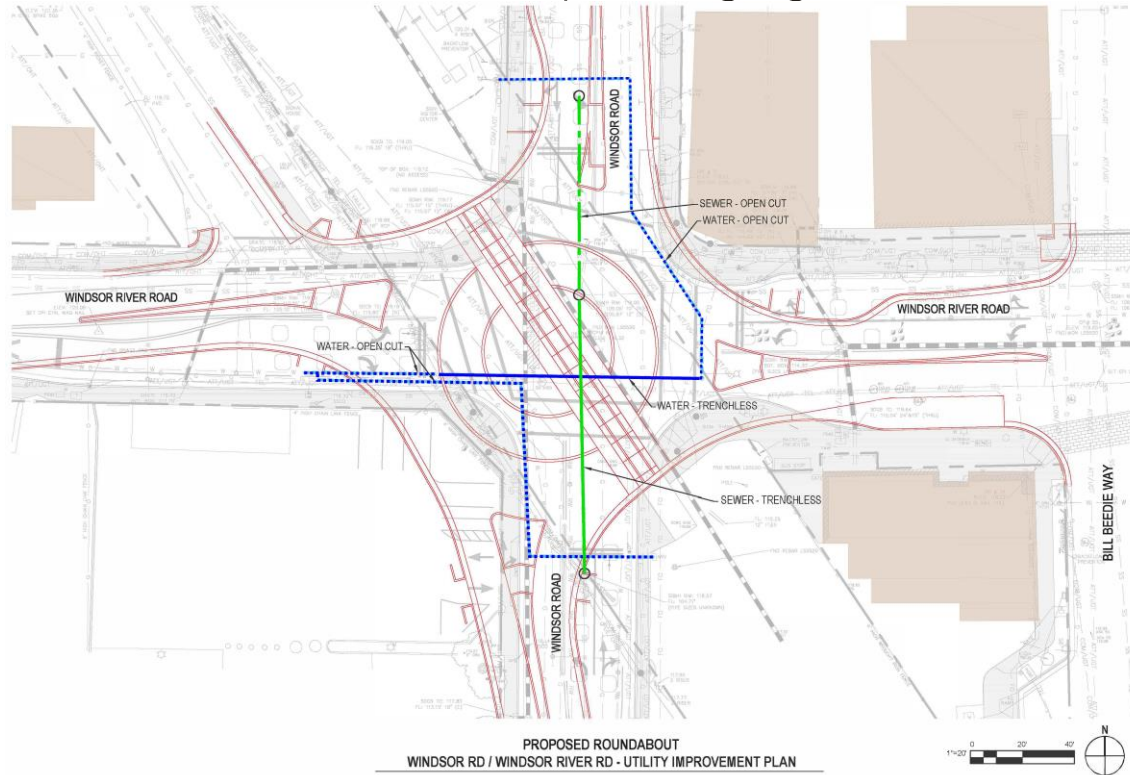

## SMART PROJECT

# ROUNDBABOUT PROJECT PHASE 1

UNDERGROUND UTILITY PROJECT – Replace aging water and sewer lines

# ROUNABOUT PROJECT PHASE 2

ROUNABOUT PROJECT – Replace existing traffic signal, add sidewalks, medians, and railway safety improvements

Construction Timeline: July 2020 to June 2021

# GOALS DURING CONSTRUCTION OF PHASE 1

- Keep intersection open at all times
- Provide access to affected businesses at all times
- Provide access to affected residents at all times
- Ensure pedestrian, bicycle and vehicle safety
- Keep community informed at all stages of construction
- Release updated information and changes to any planned activities
- Phasing construction to avoid disruption to downtown events
